

Catoosa County Schools Summer School Program
Catoosa Online Academy – Summer 2023

Registration is open for the Catoosa Online Academy (COA) Summer School 2023. All coursework will be completed online. Early registration ends May 24th; the last day to register will be June 12th.

COA offers Health and Personal Fitness (PE) to our rising 9th graders and others who need it for High School credit. These courses are a state requirement for graduation and taking them in the summer opens up the opportunity for the student to take a different course during the school year. There is NO CHARGE to take the Health or Personal Fitness during summer school.

Students may also take academic courses to make up credit or to accelerate during the summer for \$350 per 1.0 credit course.

While the Health course is a 0.5 credit online course, students may earn the Personal Fitness (PE) 0.5 credit in **one of two ways**:

- For students in a school-sponsored sport, summer marching band, or Arts:
Students who participate in a school athletic activity through **45 hours** of school practice during the summer or school year. The time must be outside the school day and verified by a certified CCPS coach/teacher. The COA coordinator will send the school personnel a Personal Fitness Documentation Verification Sheet.
- For students **not** participating in an athletic activity, marching band, or Arts:
Enroll in the Personal Fitness online course with the Catoosa Online Academy for the PE credit. Along with taking the health course, students will submit an e-log of physical activities. These activities may include – but are not limited to – walking, running/jogging, swimming, mowing the lawn, physical therapy sessions, etc.

Request an application from your zoned school or check the COA website. You may submit registration applications to Dr. Logan via email at llogan@catoosa.k12.ga.us. If you do not have the capability to scan the document for email, please call 423-497-6141 for assistance.

Information on how to complete orientation and start coursework will be emailed to each applicant by the last week of school.

Early registration ends May 24th.

The last day to register is June 12th.

All coursework is due on noon July 24th. There are no exceptions.
