

Interested in attending the College and Career Academy?

Here's what you'll do:

- Look at the [Career Pathways](#) offered at the CCA and make sure at least one pathway lines up with your interests/aptitudes (Refer to your YouScience results in Infinite Campus).
- Are you more interested in taking general/academic dual enrollment classes at the Career Academy? Talk with your School Counselor about academic and career options at your home school and at CCA.
- Complete a [pre-registration form](#) for career pathways and/or academic courses offered at CCA.
- You will receive an email within a week stating if you qualify for dual enrollment based on your Hope GPA and/or PSAT/ACT/SAT scores.
- Mrs. Hunt will be at your school on scheduled days February - May and will set a time to meet with you to discuss your chosen pathway and to complete required applications for courses.
- Your School Counselor and Mrs. Hunt will work together to make sure your schedule works. If there are any issues, you will be contacted before the fall semester of 2023.
